Lady Liberty’s New Dock

EIC Associates gets the job done under the wire
In October 2012, Hurricane Sandy hit Liberty Island, home to the Statue of Liberty. The 12-acre island was no match for Sandy. All of the docks, promenade and ancillary structures around the island were heavily damaged. EIC Associates, Inc. was contracted in April 2013 to replace the 7,000 sq. ft. service dock on Liberty Island – and they only had a few weeks to get it all done. Read the project spotlight, starting on page 112.
